Does your home tell

the story of who you
are? In The Things That
Matter, Nate Berkus
shares intimate stories
from his life, introduces
us to people who
influenced him and

helped him forge his sense of style, and opens up about the remarkable experiences that have left him forever changed, all of which find expression in how he lives today. From his most cherished flea market finds, to his beloved books and photos, to the many extraordinary mementos he's collected in his travels, every piece defines who he's become and what endures in his world. Berkus invites readers into his own home as well as into twelve others, including a sleek steel-and-glass high-rise that soars above Chicago, a rustic cottage in the Hudson Valley, an ultra-chic atelier that maximizes every inch of space, a Greenwich Village townhouse that

holds multiple art collections, and a study in meaningful minimalism in Marfa, Texas. The distinctive interiors beautifully displayed in this book offer revealing portraits of their owners' lives and the inspiring choices that have made them who they are today. *The Things That Matter* convincingly lays out Nate Berkus's philosophy that things do matter. Our homes tell our stories, they reflect the places we've been and the people we've loved along the way—and there can be no more beautiful design for living than that. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE SEATTLE TIMES**
A Daily Book of Journeys, Meditations,

and *Adventures Da Capo Lifelong Books*. An essential defense of the people the world loves to revile--the loners--yet without whom it would be lost. The Buddha. Rene Descartes. Emily Dickinson. Greta Garbo. Bobby Fischer. J. D. Salinger: Loners, all--along with as many as 25 percent of the world's population. Loners keep to themselves, and like it that way. Yet in the press, in films, in folklore, and nearly everywhere one looks, loners are tagged as losers and psychopaths, perverts and pity cases, ogres and mad bombers, elitists and wicked witches. Too often, loners buy into those messages and strive to change, making themselves miserable

in the process by hiding their true nature--and hiding from it. Loners as a group deserve to be reassessed--to claim their rightful place, rather than be perceived as damaged goods that need to be "fixed." In *Party of One* Anneli Rufus--a prize-winning, critically acclaimed writer with talent to burn--has crafted a morally urgent, historically compelling tour de force--a long-overdue argument in defense of the loner, then and now. Marshalling a polymath's easy erudition to make her case, assembling evidence from every conceivable arena of culture as well as interviews with experts and loners worldwide and her own acutely calibrated analysis,

Rufus rebuts the prevailing notion that aloneness is indistinguishable from loneliness, the fallacy that all of those who are alone don't want to be, and wouldn't be, if only they knew how.

Migrating Artists and New Metropolitan Topographies in the 20th Century Piper Lawson Steamy Romance Books Collects quotations on the wonder, exhilaration, discomfort and uncertainty that one encounters on a journey, from such authors as Paul Theroux, Mark Twain, Virginia Woolf, Freya Stark, and Lewis Carroll.

Saints' Relics Frances Lincoln Gender and Qualitative Methods outlines the practical and philosophical issues of gender in qualitative research. Taking a social constructionist approach to gender, the authors emphasize that the task of the researcher is to investigate how gender//s is//are defined, negotiated and performed by people themselves within specific situations and locations. Each chapter begins with an introduction to a specific method and//or research subject and then goes on to discuss gender as an analytical category in relation to it. Areas covered include: field work; life story; membership categorisation analysis;

and analysis of gender in sound and vision. Written in a clear and accessible way, each chapter contains practical exercises that will teach the student methods to observe and analyze the effects of gender in various texts and contexts. The book is also packed with examples taken from women and men's studies as well as from feminist and other gender studies.

The poet and author's "beautiful . . . wise and warm" journal of time spent in her New Hampshire home alone with her garden, her books, the seasons, and herself (Eugenia Thornton, Cleveland Plain Dealer). "Loneliness is the poverty of self; solitude is richness of self."

—May Sarton
 May Sarton's parrot chatters away as Sarton looks out the window at the rain and contemplates returning to her "real" life—not friends, not even love, but writing. In her bravest and most revealing memoir, Sarton casts her keenly observant eye on both the interior and exterior worlds. She shares insights about everyday life in the quiet New Hampshire village of Nelson, the desire for friends, and need for solitude—both an exhilarating and terrifying state. She likens writing to "cracking open the inner world again," which sometimes plunges her into depression. She confesses her fears, her disappointments, her unresolved angers.

Sarton's garden is her great, abiding joy, sustaining her through seasons of psychic and emotional pain. *Journal of a Solitude* is a moving and profound meditation on creativity, oneness with nature, and the courage it takes to be alone. Both uplifting and cathartic, it sweeps us along on Sarton's pilgrimage inward. This ebook features an extended biography of May Sarton.

Exile and migration played a critical role in the diffusion and development of modernism around the globe, yet have long remained largely understudied phenomena within art historiography. Focusing on the intersections of exile, artistic practice and urban space, this volume brings together contributions by international researchers committed to revising the historiography of

modern art. It pays particular attention to metropolitan areas that were settled by migrant artists in the first half of the 20th century. These arrival cities developed into hubs of artistic activities and transcultural contact zones where ideas circulated, collaborations emerged, and concepts developed. Taking six major cities as a starting point – Bombay (now Mumbai), Buenos Aires, Istanbul, London, New York, and Shanghai – the authors explore how urban topographies and landscapes were modified by exiled artists re-establishing their practices in metropolises across the world. Questioning the established canon

of Western modernism, *Arrival Cities* investigates how the migration of artists to different urban spaces impacted their work and the historiography of art. In doing so, it aims to encourage the discussion between international scholars from different research fields, such as exile studies, art history, social history, architectural history, architecture, and urban studies.

How lessons from kindergarten can help everyone develop the creative thinking skills needed to thrive in today's society. In kindergartens these days, children spend more time with math worksheets and phonics flashcards than building blocks and finger paint. Kindergarten is becoming more like the rest of school. In *Lifelong Kindergarten*, learning expert Mitchel Resnick argues for exactly the opposite: the rest of school (even the rest of life) should

be more like kindergarten. To thrive in today's fast-changing world, people of all ages must learn to think and act creatively—and the best way to do that is by focusing more on imagining, creating, playing, sharing, and reflecting, just as children do in traditional kindergartens. Drawing on experiences from more than thirty years at MIT's Media Lab, Resnick discusses new technologies and strategies for engaging young people in creative learning experiences. He tells stories of how children are programming their own games, stories, and inventions (for example, a diary security system, created by a twelve-year-old girl), and

collaborating through remixing, crowdsourcing, and large-scale group projects (such as a Halloween-themed game called Night at Dreary Castle, produced by more than twenty kids scattered around the world). By providing young people with opportunities to work on projects, based on their passions, in collaboration with peers, in a playful spirit, we can help them prepare for a world where creative thinking is more important than ever before.

Kitchen, cooking, nutrition, and eating have become omnipresent cultural topics. They stand at the center of design, gastronomy, nutrition science, and agriculture. Artists have appropriated cooking as an aesthetic practice - in turn, cooks are adapting the

staging practices that go with an artistic self-image. This development is accompanied by crisis of eating behaviour and a philosophy of cooking as a speculative cultural technique. This volume investigates the dimensions of a new culinary turn, combining for the very first time contributions from the theory and practice of cooking.

Explores the passions and contradictions--both human and political--that turned the prolific and brilliant painter, Diego Rivera, into an increasingly universal cultural figure Diego Rivera was a revolutionary painter in more ways than one. Attending art school at 11, by his

twenties he was counted among the most influential figures of the Parisian art scene of the early 20th century, including Picasso, Modigliani, Braque, and Gris. Rivera's murals, both in his native Mexico and the United States, reflect the contradictory turbulence of his character and times. He met Lenin in Paris, Stalin in Moscow, and offered refuge to Trotsky during his Mexican exile. Meanwhile, his work was commissioned by giants of capitalism: Henry Ford and John D. Rockefeller. Rivera's indefatigable industry was matched by his zest for life, accumulating hundreds of lovers and four wives--including Frida Kahlo, whose

formidable partnership is also one of the great love stories of art history. This beautifully realized graphic novel tells the story of the extraordinary life and times of an artist for whom myth and reality fused.

Fagin's infamous gang comes to life once again in this exciting Oliver Twist-inspired adventure from bestselling author Karen McCombie. Ballantine Books This book brings together recent research on interpersonal relationships in education from a variety of perspectives including research from Europe, North America and Australia. The work clearly demonstrates that

positive teacher-student relationships can contribute to student learning in classrooms of various types. Productive learning environments are characterized by supportive and warm interactions throughout the class: teacher-student and student-student. Similarly, at the school level, teacher learning thrives when there are positive and mentoring interrelationships among professional colleagues. Work on this book began with a series of formative presentations at the second International Conference on Interpersonal Relationships in Education (ICIRE 2012) held in Vancouver, Canada, an event that included among others, keynote addresses by

David Berliner, Andrew Martin and Mieke Brekelmans. Further collaboration and peer review by the editorial team resulted in the collection of original research that this book comprises. The volume (while eclectic) demonstrates how constructive learning environment relationships can be developed and sustained in a variety of settings. Chapter contributions come from a range of fields including educational and social psychology, teacher and school effectiveness research, communication and language studies, and a variety of related fields. Together, they cover the important influence of the relationships of teachers with individual students,

relationships among peers, and the relationships between teachers and their professional colleagues.
